# FACT SHEET

## Corridor-wide CVO

**Lead Agency:** Caltrans  
**Project Manager:** Vacant

**July 2000**  
**NO UPDATE PROVIDED**

**Phone:**

### Summary / Objectives:

This project will provide a traveler information system that empowers users to achieve greater efficiency and safety in their operations. This system will be tailored to commercial vehicle operators, shippers, brokers, port operators and others that do business in the Southern California Priority Corridor. CVO information will be delivered via wire and wireless media from the multi-region transportation management center (TMC) network. The project scope of work includes planning, design and delivery of a CVO Advanced Traveler Information System (ATIS) that will interface seamlessly with other current and projected ATIS implementations in the Southern California ITS Priority Corridor. Resources for this project include both Showcase (\$750,000) and non-Showcase (\$200,000) funds.

### Project Status:

A multistakeholder team will be convened to evaluate consultant proposals (to be conducted on June 1 and 2, 2000) and make a final recommendation. This project is being procured in tandem with the San Diego Regional ATIS project (which uses non-Showcase funds); however the two projects will be managed separately. Consultant selection is expected to be completed by June 30, 2000.

No changes since May 2000.

### Critical Issue(s):

Close coordination with other ATIS RFPs/projects currently under development or contract; careful monitoring and fiscal oversight of CVO portions of contract expenditures.

### Next Steps:

- Conduct oral interviews
- Evaluate consultant teams
- Award Contract
- Begin Monitoring and Oversight of Project Deliverables

### Schedule:

- Consultant selection process completed by June 30, 2000
- Begin work by July 1, 2000
- Project complete by December 31, 2001

### Fiscal / Contractual Information:

Budget:	Phase I (Planning)		Phase II (Design and Implementation)	
	\$200,000		\$600,000	Federal
			\$150,000	State
	<b>\$200,000 Total</b>		<b>\$750,000</b>	<b>Total</b>
Consultant:	N/A
